LED Retaining Wall Lights by Nox

Lighting are extremely versatile landscape lighting fixtures. Their low profile design is perfect for any hardscape lighting project - retaining walls lights, seating bench lights, step lights, and so much more. The Nox LED Step & Retaining Wall Light can even be incorporated into deck railings and

balconies. This low voltage landscape lighting fixture has a stainless steel construction and a durable, bronze powder-coat finish. Our simple design makes integrating this light into your landscape plan a breeze, and maintenance is quick and easy. Our LED bulbs radiate a perfect incandescent color lending that ideal warmth to your outdoor living space - turning your backyard into a paradise you can enjoy both day and night all year around.

Our LED Retaining Wall Light is the **only serviceable light of its kind** available on the market - simply replace the bulb. No other manufacturer can say the same.
